tary or last sension of Congress on tring the last session of Congress our do out the Triph! were probing printing, ready to investigate at the fof the last is about their miscellaneous in last probe, was put out of business ou mist probe, as far as this Discount of the concerned, probe in the whole-

Ill give his for Lies Raiway com-ron.

The old familiar cry was heard only mire out the Stock Exchange yesterday.

If was a point better than the hid prive turing the regular call. It was the first van of life in the stock for sixty days. No one sold the L00 shares.

For the pryferred the official hid was with with Sig asked. The chances are has the Washington Pullifles Company was aloud all the Washington Raiway and Electric stock in its vanits that it area, until the divers propositions for crylinities, investigation, &c., have been asked open.

it made the market look a little for the bid, even if it did no out stock.

Quite a little excitement was shown is the advance of American Security and Frust Company shares to III, an advance of four points on the current flueres of externary, and the bid was on the fluor then the exglor closes.

A sale of Hasiway common was actu-ily made at \$6 early in the session wenty-five shares, but this was the only sansaction.

United States Trust sold at 142; Union Trust 148;

They have been selling around left and closed its and closed is 1901.

The earnings of the Woolworth Company, including the local establishments, for the month of November were statistically and the month of November were statistically as the month of the year Sitter were statistically as the statistical work of the week of the were sold, an excess of over \$7,000,000, or \$8.32 per 15.52 per 15.

through the South and offer them to New York and other Northern interests. Mr. Tsit, president of the company, has long held that Washington is the legical meeting place between the undeveloped opportunities of the South and the in-vestment interests of the North. cent, as compared with the husiness of the first eleven months of 1911. Verily, there is money in little things-amall, useful, cheep things.

WALL STREET GOSSIP

The miscellaneous short interest is ver-large vet, according to our investigation Office traders continue to be very bearings a rule.

Wise absorption by foreign interests reported to be taking place in Southe Pacific on information cabled from Ne York.

There is increasing evidence of power ful absorption of good stocks by interests that sold immediately after the fire war scare.

Odd-lot buying is said to have in creased materially during the past fer days especially in rails.

The bear party will not give up without a struggle, for it is composed of very strong professionals.

Some very well-informed buying is noticed in Amelgamated Copper, Other copper shares are well taken also.

Lawson and the Western speculative element are still inclined to sell on railles, if floor goesip has any truth in it.

rement are still inclined to sell on railing. If there goes has any truth in it.

Cotton railies are likely to follow drives now.

A scaiping position is being laken by grain truders.

The remeated pressure on Biesl. Beading, and Union Pacific is coming from the second process of the s
